Caroline W

SUMMARY

Creative and highly skilled UI/UX Designer proficient in wireframing, prototyping, and delivering innovative design solutions.

EDUCATION AND TRAINING

Bachelor of Science: Cognitive Science (Design and Interaction)
University of California - San Diego
GPA: 3.86/4.00

EXPERIENCE

WuXi Biologics - Data Analyst
07/2022 - 09/2022

- Collaborated on team for production phase process validation and troubleshooting, ensuring smooth manufacturing operations
- Verified and organized data from production records, encompassing product quality, process parameters, and equipment performance and created graphical representations for visualization.

UCSD - Product Redesign
San Diego, California • 04/2023 - 06/2023

- Conducted user interviews to gather valuable insights into user preferences and pain points
- Completed a competitive analysis to identify benchmark against similar products
- Utilized user feedback to iterate on multiple design prototypes.

UCSD - UIUX Design
San Diego, California • 10/2023 - 12/2023

- Developed interactive kiosk interface by designing a user-friendly screen comprising a series of pages aimed at assisting users in effectively sorting their trash.
- Produced prototypes and constructed functional kiosks utilizing medium-density fiberboard and spray paint.
